VOLUNTARY SUMMER PRACTICE:

Students may choose to apply for an internship voluntarily to extend their work experience.

Students who are intending to apply for an internship voluntarily must follow the stated rules:

- Students are required to receive the grade S for IAED 290 and IAED 390.
- Students can apply for 1 volunteer Summer Practice only.
- Students must select a company/office matching the outline of IAED 290 or IAED 390.
- Your Voluntary Summer Practice should not coincide with courses taken during Summer School. No exceptional cases!

The application process is the same as for the summer practice courses IAED 290, IAED 390.

Since the voluntary internship is not a mandatory part of your degree neither you are registering to any summer practice course nor you are submitting any documents related to the voluntary internship.
